At Bonnie Gull we source our seafood daily from a number of suppliers around the British coast. We focus on seasonality and sustainability and only buy a product when it's at it's best. Most of our seafood comes from small day-boats, which means there is a good chance that what you eat here today has been out the water for less than 24 hours! Our chefs place daily orders with a range of suppliers to get the best produce at the best prices - it's an arduous process but one which enables us to serve the freshest seafood in London. Our menus are subject to daily content and price change based on the day's catch and the weather conditions at sea. All our fish and seafood come from British waters and the only thing in our freezer is ice cream!
